## With Lyn Milum, EEM-AP, LMT

Curious about the energy systems of the human body? This hands-on course offers an introduction to our energy anatomy and physiology including:

- Basic energy organizations
- Body polarity and grounding
- Aura, Chakras, Meridians
- Gatekeepers, Strange Flows,
- Celtic Weave, Five Rhythms, Electrics
- Practice introductory energy kinesiology

Participants will give and receive therapeutic techniques during the class. This is a survey course where you can learn an overview of several energy systems and how to consciously interact with them in a healing way. Come get a taste of the many energy systems of the body, and experience potent and simple wellness techniques for yourself and your clients.
